Dear DLA Customer Interaction Center and CAGE Review Team,

Thank you for the rapid review and confirmation under Case **CS2439900** verifying that our physical address layout matches perfectly between our active NATO NSPA master record and our SAM.gov entry data.

As requested by the analyst, I am reaching back out to the Customer Interaction Center (CIC) to confirm that our SAM.gov registration for **INTAEROBASE (UEI: RKCQQ94X66D5)** is fully submitted and currently sitting in **"Submitted Registration"** status within our federal workspace.

Now that the registration is in a submitted state, please route this transaction directly to the CAGE department for the promised manual review and backend database alignment to clear the transmission limitation.

Our complete verification evidence portfolio—including our NATO NSPA profile, Pakistan FBR NTN tax certificates, and front-end entry logs—remains attached to this file history for your direct reference.

Thank you for your exceptional support in finalizing our compliance synchronization.

Highest professional regards,

Hafiz Faisal Farooq
