SUPPORT TICKET UPDATE - DLA VALIDATION CASE CS2439900 CONCLUDEDear FSD Support Team,Please be advised that the Defense Logistics Agency (DLA) Customer Interaction Center has reviewed our data alignment discrepancy under Case CS2439900. The DLA validation analyst officially confirmed that our physical address entry is identical between SAM.gov and NSPA, and that no input discrepancy exists on our part. Our registration is currently finalized in "Submitted Registration" status. We have reached back out to the CAGE department for their manual backend override as instructed. Please keep this FSD incident ticket open in a monitoring state until the final data synchronization completes across both agency databases. Thank you,Hafiz Faisal Farooq | INTAEROBASE

URGENT TIER 2 DATABASE ADMINISTRATOR UPDATEDear FSD Support Team,My entity registration for INTAEROBASE (UEI: RKCQQ94X66D5 / NCAGE: STLX0) has just been returned by the Defense Logistics Agency (DLA) via an official rejection notice on May 23, 2026. As explicitly detailed in the DLA notice, our master NATO NSPA record is completely active and correct, but the outbound SAM.gov payload transmitted a corrupted, truncated address layout that completely omitted our province and postal code fields: Official NSPA Record Transmitted to CAGE: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN-E-IQBAL, KARACHI, SINDH, 75300, PAKISTAN Corrupted SAM.gov Payload Received by DLA: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN- (Province: BLANK / Postal Code: BLANK) As proven in Attachment_8_SAM_SUBMIT_Review1.pdf already uploaded to this ticket, we fully and successfully entered our untruncated address layout on the front-end portal. The system truncation is happening exclusively within the outbound data transfer pipeline. Because a standard user resubmission will simply replicate this automated 50-character truncation loop, we respectfully request that a Tier 2 database administrator perform a manual backend database override to align our outbound SAM.gov payload fields with our active NATO NSPA profile character-for-character. All supporting government tax certificates (FBR NTN) and matching NCB profiles are attached below for your direct validation. Please do not close this ticket automatically; we require a manual backend data synchronization to resolve this transmission limitation. Thank you for your critical technical support.Highest regards,Hafiz Faisal FarooqManaging Director | INTAEROBASE admin@intaerobase.com

Manual Address Alignment Needed for International Entity - UEI: RKCQQ94X66D5

Please describe your issue
Plaintext
Hello,

I am writing to request an immediate Tier 2 manual data alignment for my international entity registration. My registration was recently returned to "Work in Progress" due to a CAGE/DLA rejection stating: "Rejected-invalid physical address does not match NCB data."

This issue stems from an automated database character-mapping and truncation limitation within the SAM.gov portal for international formats. I previously attempted to resolve this under ticket INC-GSAFSD21105627 where the workaround refresh steps were performed, but the backend record was never fully synchronized before the submission went to CAGE.

Please review the attached solid government evidence to verify and manually force our correct address structure into our pending profile:

1. ENTITY DETAILS:
- Legal Business Name: INTAEROBASE
- Unique Entity ID (UEI): RKCQQ94X66D5
- NCAGE Code: STLX0 (Active Status)

2. UNALTERED OFFICIAL REGISTERED ADDRESS (Per Pakistan FBR & NATO NCB):
- Street Line 1: SUITE NO. 3, GULSHAN-E-DASTAGIR
- Street Line 2: ZC-9, BLOCK-7, GULSHAN-E-IQBAL
- City: KARACHI
- State/Province: SINDH
- Postal Code: 75300
- Country: PAKISTAN

3. ATTACHED EVIDENCE:
- Official Taxpayer Registration Certificate issued by the Federal Board of Revenue (FBR), Government of

Hello,

This was from the other agent from INC-GSAFSD21105627.

"Thank you! It is showing the correct information now. You can submit the registration now. Once you submit the registration, it is sent for complete external validations. External validations with the IRS and CAGE take 10-15 business days to process fully".

If you need further assistance, please contact us via chat or email. Thank you for reaching out to FSD.gov, and have a wonderful day.

Dear FSD Support Team,

Thank you for your ongoing assistance with our registration. We have updated this incident by uploading our complete validation portfolio (Attachments 1 through 11) for your direct reference.

As demonstrated in the attached files, our complete physical address was entered successfully on the SAM.gov front-end prior to submission (Attachment 8). However, the outbound data transfer pipeline encountered a character-length truncation upon submission to the DLA CAGE database (Attachment 4).

Because deleting the draft or resubmitting through the standard user portal will replicate this automated transmission limit, we respectfully request that a database specialist manually review this record. Kindly help us ensure the outbound data payload fields for UEI RKCQ94X66D5 are updated to transmit our full, untruncated address layout to match our active NATO profile character-for-character.

Thank you very much for your time, technical expertise, and support.

Highest regards,

Hafiz Faisal Farooq

Subject: SAM.gov Address Validation Appeal - NCAGE: STLX0 / UEI: RKCQ94X66D5 - Database Technical Field Truncation
To the Defense Logistics Agency (DLA) Customer Interaction Center and NCAGE Review Team,
I hope this correspondence finds you well. I am writing to formally request a manual compliance review and backend database alignment for our international entity registration. Our registration package was recently returned due to an address mismatch discrepancy between the NATO Commercial and Government Entity (NCAGE) master record and the incoming SAM.gov data payload. An analysis of our transmission record reveals that our core data is completely correct, but a technical 50-character field limitation within the SAM.gov outbound data transfer pipeline is physically

Pakistan (Registration No. 4220148367751).
- Form 181 (Income Tax Modification Record) confirming ownership of the business name "INTAEROBASE" at this exact address location.
- Official NATO/NCAGE database profile summary proving an exact match with NCB records.

The registration is currently sitting safely in an unlocked "Work in Progress" draft state on my workspace. Please do not close this ticket automatically; route this to a tier-2 database administrator who can manually align this address to match our NCAGE profile STLX0 on the backend so it survives the automated DLA CAGE synchronization filter.

Thank you,
Hafiz Faisal Farooq
Owner, INTAEROBASE

data truncation prevents us from properly truncating our physical address string and omitting our administrative province and postal code fields.

Entity Validation References:

- Legal Business Name: INTAEROBASE
- Unique Entity ID (UEI): RKCCQ94X66D5
- NCAGE Code: STLX0 (Status: Active / A)
- Country of Registration: Pakistan

Data Discrepancy Reconciliation: As verified in your automated return notice, our master registration profile on the NATO (NSPA) portal reflects our true, unabbreviated physical business location. The automated SAM.gov outbound payload systematically corrupts this data layout by dropping all characters after the 50th position:

- Official NATO (NSPA) Master Record Address: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN-E-IQBAL, KARACHI, SINDH, 75300
- SAM.gov Truncated Payload Received by DLA: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN- (Province and Postal Code transmitted as blank)

Regulatory and Compliance Necessity: As a defense and aerospace service contractor operating out of Karachi, maintaining absolute, character-for-character data integrity across all global federal platforms is mandatory for our licensing, aviation compliance tracking, and financial auditability. We are legally unable to truncate or use non-standard abbreviations on our official business registration, as doing so would invalidate our alignment with our Federal Board of Revenue (FBR) tax filings and our notarized legal instruments.

Requested Action: We request that a DLA validation analyst examine the comprehensive evidence portfolio attached to this email and perform a manual database override to align the transmitted SAM.gov fields with our active NATO NSPA master record character-for-character. This will prevent our registration from entering an unresolvable, automated tech-loop rejection.

Attached Evidence Portfolio:

1. Attachment_1_NATO_NSPA_Profile_STLX0.pdf (Verifies our active master international registration showing our full legal address: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN-E-IQBAL, KARACHI, SINDH, 75300)
2. Attachment_2_Government_Pakistan_FBR_NTN.pdf (Active official Federal Board of Revenue (FBR) National Tax Number (NTN) Certificate for Intaerobase)
3. Attachment_3_Notarized_Entity_Administrator_Letter.pdf (A copy of the stamped, notarized Entity Administrator Appointment Letter on your Sindh legal e-stamp paper that you used during your registration process)
4. Attachment_4_SAM Entity Registration email15 (DLA Official Discrepancy Notice showing the truncation point)
5. Attachment_5_SAM_Status.pdf (SAM Status Tracker): Real-Time SAM Tracker Confirms that our front-end portal submission was fully completed with all core data fields properly populated

Screenshot:

6. Attachment_6_FSD_Correction_INC-GSAFSD21105627_03.pdf (showing that you successfully hit "Submit" and that everything is marked complete, proving you did not leave any fields blank on the front-end after verification FSD Note.
7. Attachment_7_FSD_Correction_INC-GSAFSD21112377.pdf
8. Attachment_8_SAM_SUBMIT_Review1.pdf (Proof of Full Front-End Entry If you look at the "Entity Addresses" section on page 1 of this document, your full street address is completely entered into the system: SUITE NO. 3, GULSHAN-E-DASTAGIR ZC-9, BLOCK-7, GULSHAN-E-IQBAL

This is crucial because it proves to the FSD that we did not leave the fields blank or truncate the text yourself. We typed it in

NOTE: Please do not attach documents containing Personally Identifying Information (PII), Controlled Unclassified Information (CUI), or other sensitive, unsolicited information to your FSD tickets. All Entity Validation Data related to UEI must be submitted via SAM.gov. Sam Entity Administrator Appointment Letters may be attached to the FSD tickets after logging into FSD via Login.gov.

perfectly, and the portal accepted it on the front-end review screen.

These pages show you completing the final Federal Acquisition Regulation (FAR) representations and certifying under penalty of law (Title 18 of the United States Code) that the data is 100% accurate. Including these shows the FSD that you take your legal obligations seriously. You are presenting yourself as a highly disciplined contractor who cannot simply "invent" a shortened, unofficial address layout just to bypass a technical portal limitation.
