Please describe your issue
An analysis of our record reveals that our core data is completely correct, but a technical 50-character field limitation within the outbound data transfer pipeline limits our physical address string and omits our administrative province and postal code fields during transmission.

Resolution: Good Day Hafiz Faisal Farooq,

When researching your NCAGE information, I found the account to be inactive in SAM.GOV. It seems that the physical address is the same in SAM.GOV and NSPA so there should be no discrepancy. Please resubmit the SAM.GOV registration this will put your registration into a submitted status. Once the registration is resubmitted please reach back out to the CIC for a manual review from the CAGE department.
